

Wallahi bi Suhbatih Fuzna

By Allah through his (the Prophet) company we are truly victorious! And we have evaded the path of delusion

And have attained the station of closeness, with his good pleasure we have reached our goal

The face of love is here for us, and the caller of connection is crying out,

And the sweet fragrance of our dearest ones perfumes the air, and the blamer reached late morning heart-sickened

There is no one but You who sees us, You, who Knows our inner secrets,

So forgive your slave oh Ever Forgiving One, and grant him Your good pleasure for eternity

My Lord send your blessings upon the innermost secret (Prophet Muhammad) at all times,

He who came with the verses, and grant him the most praiseworthy ranks
